

## COMPACT RANGE

# BVL

Patent Pending

**Vacuworx** portable vacuum lifting systems offer the perfect solution for smaller lifting challenges on the job or in the shop. Engineered for both interior and exterior applications, these battery powered lifters can go to work anywhere! The Burial Vault Lifter utilizes the **PHD** and **Forklift Assembly** to provide a solution to maneuver vault components safely and efficiently. The PHD features a twin pump design, wireless remote control and a lift capacity of 2,500 lb (1.13 tonne).

- Lightweight and completely portable
- Ideal for applications where no power source is available
- PHD features two dual-stage vacuum pumps for faster operation, a wireless remote control for more applications, and a 12V 30 Ah rechargeable LFP battery for longer run time

## Components

The Burial Vault lifter is comprised of four main Vacuworx components in any combination that is needed.

1. PHD Lifter
2. PHD Lite Forklift Adapter (this includes the spreader beam, external gauge, dual hose setup, with a choice of dual pads)
3. Leg assembly which allows for legs to be lowered for storage or rotated up to be out of the way during use
4. Dual pads (available in three sizes)
