

Want a better fuel tank solution?

Eco Tank Solutions' TerraCubes are the fast, easy and convenient fuel storage solution you need.

TerraCubes feature a double walled design, which means leak containment standards are met without needing independent bunds.

Mobile and modular for fast transport and set up. Fork lift pockets make for easy movement, and tanks can be stacked 2 high while full!

Double-walled tanks have an inner and outer wall, providing an added layer of protection against leaks. Lower the risk of environmental contamination.

Meet or exceed governmental environmental regulations, avoid fines and legal issues.

Reduce operational stoppages, keep working, keep earning! Less fuel deliveries.

Fuel versatility allows for greater flexibility in fuel management and supports the use of alternative, more sustainable fuel sources.

TERRACUBE SPECIFICATIONS

Model	Safe Fill Level	Length mm (Inches)	Width mm (inches)	Height mm (inches)	Tare Weight Kg (LBS)
TC10	1000 litres	1100 (43.31)	1864 (73.39)	1254 (49.37)	766 kg (1688.74 lbs)
TC25	2500 litres	2274 (89.53)	1674 (65.91)	1254 (49.37)	1185 kg (2612.47 lbs)
TC45	4500 litres	2274 (89.53)	2274 (89.53)	1254 (49.37)	1678 kg (3699.35 lbs)
TC60	6000 litres	3574 (140.71)	2274 (89.53)	1254 (49.37)	2036 kg (4488.61 lbs)
TC80	8000 litres	4874 (191.89)	2274 (89.53)	1309 (51.54)	2730 kg (6018.61 lbs)
TC100	9550 litres	6058 (238.50)	2438 (95.98)	1295 (50.98)	4443 kg (9795.13 lbs)

Tank Manway
Recessed Spill Box Area
*20 GPM Pump Shown

TerraCubes carry UL 142 and ULC S601 Certification
